**DETAILED ACTION**

1. Applicant's election of Group I, claims 1-11, 22 and 23 is acknowledged. However, upon further consideration, the restriction dated February 1, 2003 is withdrawn. A new restriction is set forth below. Claims 1-23 are pending. The Office regrets any inconvenience to Applicant.

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-21, drawn to a method for continuous production and isolation of Hepatitis A *virus*, classified in class 435, subclass 235.1.
  - II. Claims 22-23, drawn to a cell culture, classified in class 435, subclass 325.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the cell culture may be used in other methods such as infectivity assays or drug sensitivity tests.

Because these inventions are distinct for the reasons given above and the literature search required for Group I is not co-extensive for Group II, and therefore burdensome, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***Conclusion***

3. Papers relating to this application may be submitted to Group 1600 by facsimile transmission. Papers should be faxed to Group 1600 located in Crystal Mall 1.
